

Rushikesh Ghosalkar

Software Engineer — .NET Backend & Full Stack

Mumbai, India | +91 9967742423 | rushikeshghosalkar023@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience designing and delivering scalable, high-performance microservices and REST APIs using ASP.NET Core, C#, and cloud platforms - AWS. Proven track record in serverless architecture, distributed systems, cloud-native security, and SOLID design principles. Experienced in Agile/Scrum environments with a strong focus on code quality, performance optimization, and mentoring team members.

TECHNICAL SKILLS

Languages: C#, SQL

Backend: ASP.NET Core, .NET Core, .NET Framework, REST APIs, Microservices, Serverless Architecture, Entity Framework Core, CQRS, Repository Pattern, Factory Pattern, Middleware Development

Cloud & DevOps: AWS (Lambda, S3, DynamoDB, SQS, SNS), Docker, CI/CD, GitHub Actions

Databases: MS SQL Server, DynamoDB, Oracle SQL

Security & Quality: OAuth2, JWT, SAST/SCA (Black Duck), Secure Coding, Code Review, SOLID Principles

Frontend: React, Redux

Tools & Practices: Git, Agile/Scrum, Performance Optimization, Distributed Tracing, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Software Engineer | **Cornerstone OnDemand** — Mumbai, India

Oct 2024 – Present

- Designed and implemented serverless AWS Lambda functions in .NET to replicate and rehydrate DynamoDB Streams into S3, enabling reliable disaster recovery and supporting elastic, distributed data pipelines.
- Built and enhanced microservice-based REST APIs using ASP.NET Core and C#, improving scalability and maintainability across multiple production services.
- Designed and implemented custom ASP.NET Core middleware for distributed tracing and runtime request instrumentation, providing deep observability into the request lifecycle and reducing mean-time-to-resolve production issues.
- Identified and remediated Docker image and open-source security vulnerabilities, strengthening cloud-native application security posture.
- Analyzed and resolved SAST/SCA-reported vulnerabilities (Black Duck) by upgrading vulnerable transitive dependencies and enforcing secure package management practices.
- Performed root cause analysis on production-critical client incidents and implemented permanent fixes, reducing recurring issue rate.
- Collaborated in Agile/Scrum teams — decomposing epics, estimating stories, and consistently delivering sprint commitments.

Software Development Engineer | **Diebold Nixdorf** — Mumbai, India

Apr 2024 – Oct 2024

- Developed a multithreaded test automation framework for ATM and POS systems using .NET Core and C#, enabling concurrent execution and supporting performance-critical test scenarios.
- Optimised application responsiveness and throughput under high-concurrency workloads, improving overall system reliability and execution efficiency.

Software Engineering Analyst | **Accenture** — Mumbai, India

Aug 2021 – Apr 2024

- Designed, developed, and maintained RESTful APIs using ASP.NET Core and C# within distributed microservices architectures, serving enterprise-scale clients.

- Implemented rate limiting and in-memory/distributed caching strategies, significantly improving API scalability and reducing latency under high-traffic conditions.
- Built secure APIs with OAuth2-based authentication and authorization, mitigating common API security threats and ensuring regulatory compliance.
- Designed and optimised Oracle SQL stored procedures, improving backend data processing efficiency and query performance.
- Enhanced frontend performance and state management using React and Redux, improving user experience and reducing render latency.
- Mentored junior developers on SOLID principles, clean architecture, and code review best practices.

KEY ACHIEVEMENTS

- Shared Success Catalyst Award (2023, Accenture) — Recognised for outstanding client collaboration and delivery of high-impact business solutions.
- ACE Award (2022, Accenture) — Awarded for consistent performance and ownership in delivering critical project outcomes.
- Solved 400+ Data Structures & Algorithms problems on LeetCode, demonstrating strong problem-solving and algorithmic skills. [ryuzaki 00 - LeetCode Profile](#)

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Datta Meghe College of Engineering, Mumbai | Aug 2017 – Jul 2021 | GPA: 3.42 / 4.0

CERTIFICATIONS & LANGUAGES

- React – The Complete Guide (Udemy)
- Languages: English (Proficient), German (Basic — actively learning)
